**MESSAGE OF WELCOME
FROM PROVOST ELIZABETH MARTIN, M.B.E., J.P.**

In welcoming you again to Greenock on the occasion of the 1975 Jaffa Short Course Championships I feel confident that you will find a very keen interest in the events which go to make up the programme.

Once more we are indebted to the Citrus Marketing Board of Israel for sponsoring these Championships and for having provided the two Trophies which are presented for annual competition to the outstanding male and female swimmer of each Championship.

To the swimmers who are taking part in the various events I wish them all good luck and while not everyone can win I do hope that they enjoy the experience and will be glad to have taken part in the competitions.

S.A.S.A. SHORT COURSE CHAMPIONSHIPS

The message written by the Technical Director of Swimming last year was to the swimmers outlining the pathway to success.

He stressed the need for hard work, mental and physical commitment and a desire to succeed. Scottish swimmers have shown themselves willing and able to commit to training and maintain the standards achieved during 1974.

The challenge now is to move forward into world class.

This challenge is not for the swimmers alone but belongs to all members of the Association; in particular the administrators, officials and coaches. Each one has an important role to play in the future development of Scottish Swimming.

The coaches by joining the now firmly established coaches register can, through meeting with their fellow coaches, provide valuable technical advice to the S.A.S.A. on the creation of the next stages of competitive development.

The clubs can help by ensuring that they encourage non-swimming members to become actively involved in the administration of the Association and in officiating at its district and national championships and trials.

It is only by increasing the flow of coaches, administrators and officials that the Association can hope to expand; and it is only by the cream of these being involved at national level that we can achieve the move into world class swimming.

It is important as an association that the contribution of the individual is recognised by us and that the active clubs which help maintain the fabric of the Association be identified and rewarded.

The prime objective of the Association is to create the best conditions possible for our swimmers to achieve their optimum level of performance.

Let us achieve this through creating a highly sophisticated Association with a professional approach to its problems.

We had a successful Commonwealth Games, let's have a fresh motto—Montreal '76.

JACK QUEEN.

The President, Council and Members of the Scottish Amateur Swimming Association wish to acknowledge with sincere thanks the generous and valuable assistance given by:—

Provost Mrs. E. Martin, M.B.E., J.P., of Greenock.
